

Waterproof PentaFOB® Remotes (IP67)

The Next Generation of Wireless Key Fob Remote Controls, Superior to Rolling Code Remotes

The [Waterproof PentaFOB®](#) works in conjunction with our standard PentaFOB® remotes and PCR series of receivers

Available in 1, 2, 4 and 5 button configurations. The keyring retainer is moulded as part of the chassis making for a super sturdy keyring mount.

The PentaFOB®WP series is an extremely versatile remote control that can be customized through a range of configurations and front design to suit your needs. [Click here to view compatible receivers.](#)
