Flashing Action

Flashing action can be disabled on the E80 series of flasher lights. In order to switch "off" the flashing action follow the steps below:

1. Remove the lens by turning it anti-clockwise.

2. Once removed locate the 1-way selector switch.

3. Setting this switch on "L" position is for steady action and "LF" is for flashing action.

4. After doing these changes make sure you put the lens back on firmly.
