DESCRIPTION

Combining the power of 4G wireless connectivity with innovative technology, the G4000 offers unparalleled convenience, security, and control for both residential and commercial applications. With its easy installation and user-friendly interface, managing your device has never been this simple.

The G4000 is designed by Elsema in Australia and uses high quality Canadian designed 4G module. All you need is to insert an active SIM card and program the phone numbers of all users.

Easy Remote Access: With the Elsema App, available for both iOS and Android devices, you can conveniently setup from anywhere using your smartphone. Grant or revoke access to visitors, monitor usage, and receive real-time notifications for added security.
